

## **Presentation:**

Aman Charity Association is an independent Moroccan charitable organization, unaffiliated with any political party or trade union. It contributes to development efforts in cooperation with various state interests and civil society institutions. The association primarily focuses on projects that provide potable water and initiatives aimed at fostering solidarity and social justice.

## **Objectives:**

The association's objectives span developmental, social, cultural, educational, interdisciplinary, scientific, technological, and sports-related fields. It seeks to achieve comprehensive development through various initiatives, particularly those aligned with the National Initiative for Human Development, including:

Contributing to development efforts in cooperation with state interests and civil society institutions.

Implementing projects aimed at providing potable water.

Initiating projects and activities to foster social solidarity.

Focusing on rural areas as key development zones.

Supporting efforts to combat illiteracy, promoting informal education, addressing school dropout rates, and encouraging learning.

## **Means and Tools:**

To define its activities and achieve its objectives, the association employs various legal, media, and communication tools, such as:

Communicating, cooperating, coordinating, and partnering with governmental and non-governmental events and institutions, both national and international, that share common goals.

Organizing and facilitating training sessions, awareness campaigns, forums, workshops, field studies, research, documentaries, and films related to rural development and supporting underprivileged groups and people with special needs.

Organizing and participating in exhibitions, forums, debates, conferences, and events related to science, technology, art, social issues, culture, and sports within the predefined objectives.

Conducting humanitarian and medical convoys and development projects to aid rural development.

Preparing and submitting projects serving the most vulnerable segments of society to internal and external institutions supporting charitable and humanitarian activities and overseeing the implementation of these projects.

## **Examples of Well Projects:**

## **Examples of Actions and Projects Completed in Response to the Earthquake in Morocco**

1. **Assessment of Villages:** Evaluated the conditions of villages immediately after the disaster.
2. **Tent Installation:** Set up more than 500 tents in the Haouz and Taroudant provinces.
3. **Prefabricated Houses:** Installed prefabricated houses in the Taroudant region.
4. **Primary Schools:** Established primary schools and distributed school supplies.
5. **Aid Distribution:** Distributed food baskets, tents, blankets, and clothing.
6. **Mosque Setup:** Set up mosques equipped with carpets, pallets, and sound systems.
7. **Current Issues:** Addressing ongoing challenges.

**1. Situation of Villages: Assessing the conditions of villages visited immediately after the disaster.**

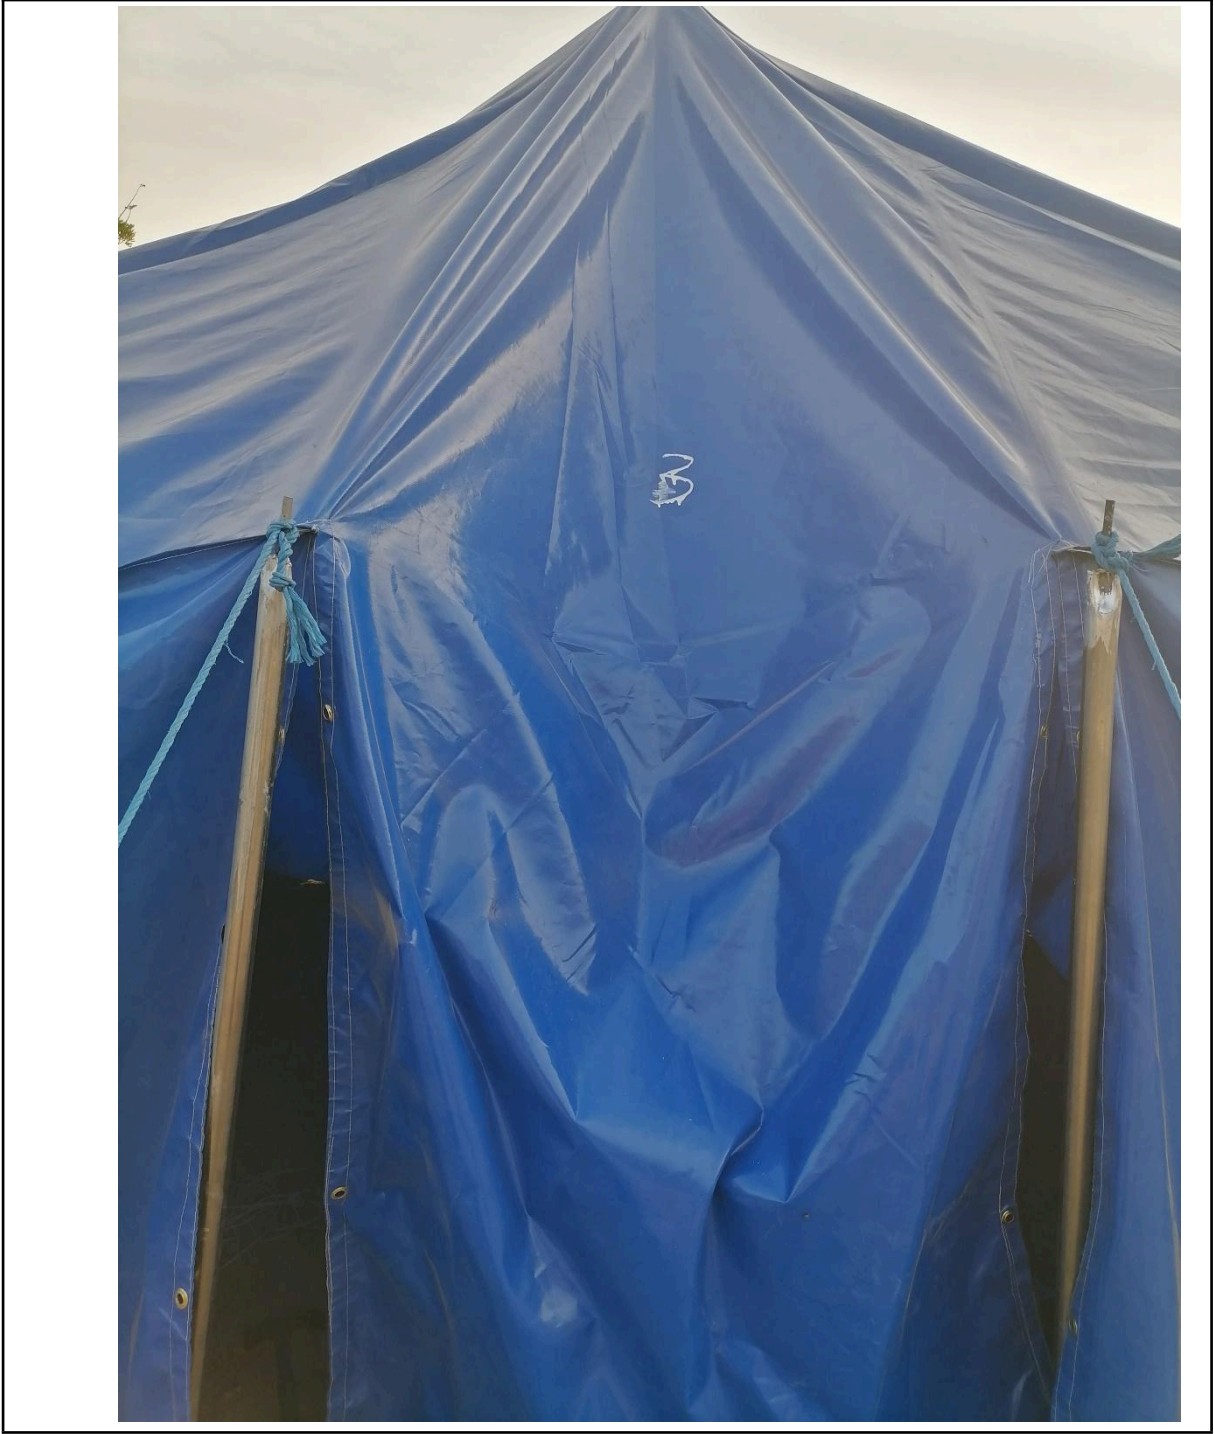

**2. Installation of more than 500 tents in the two provinces of HAOUZ and Taroudant**

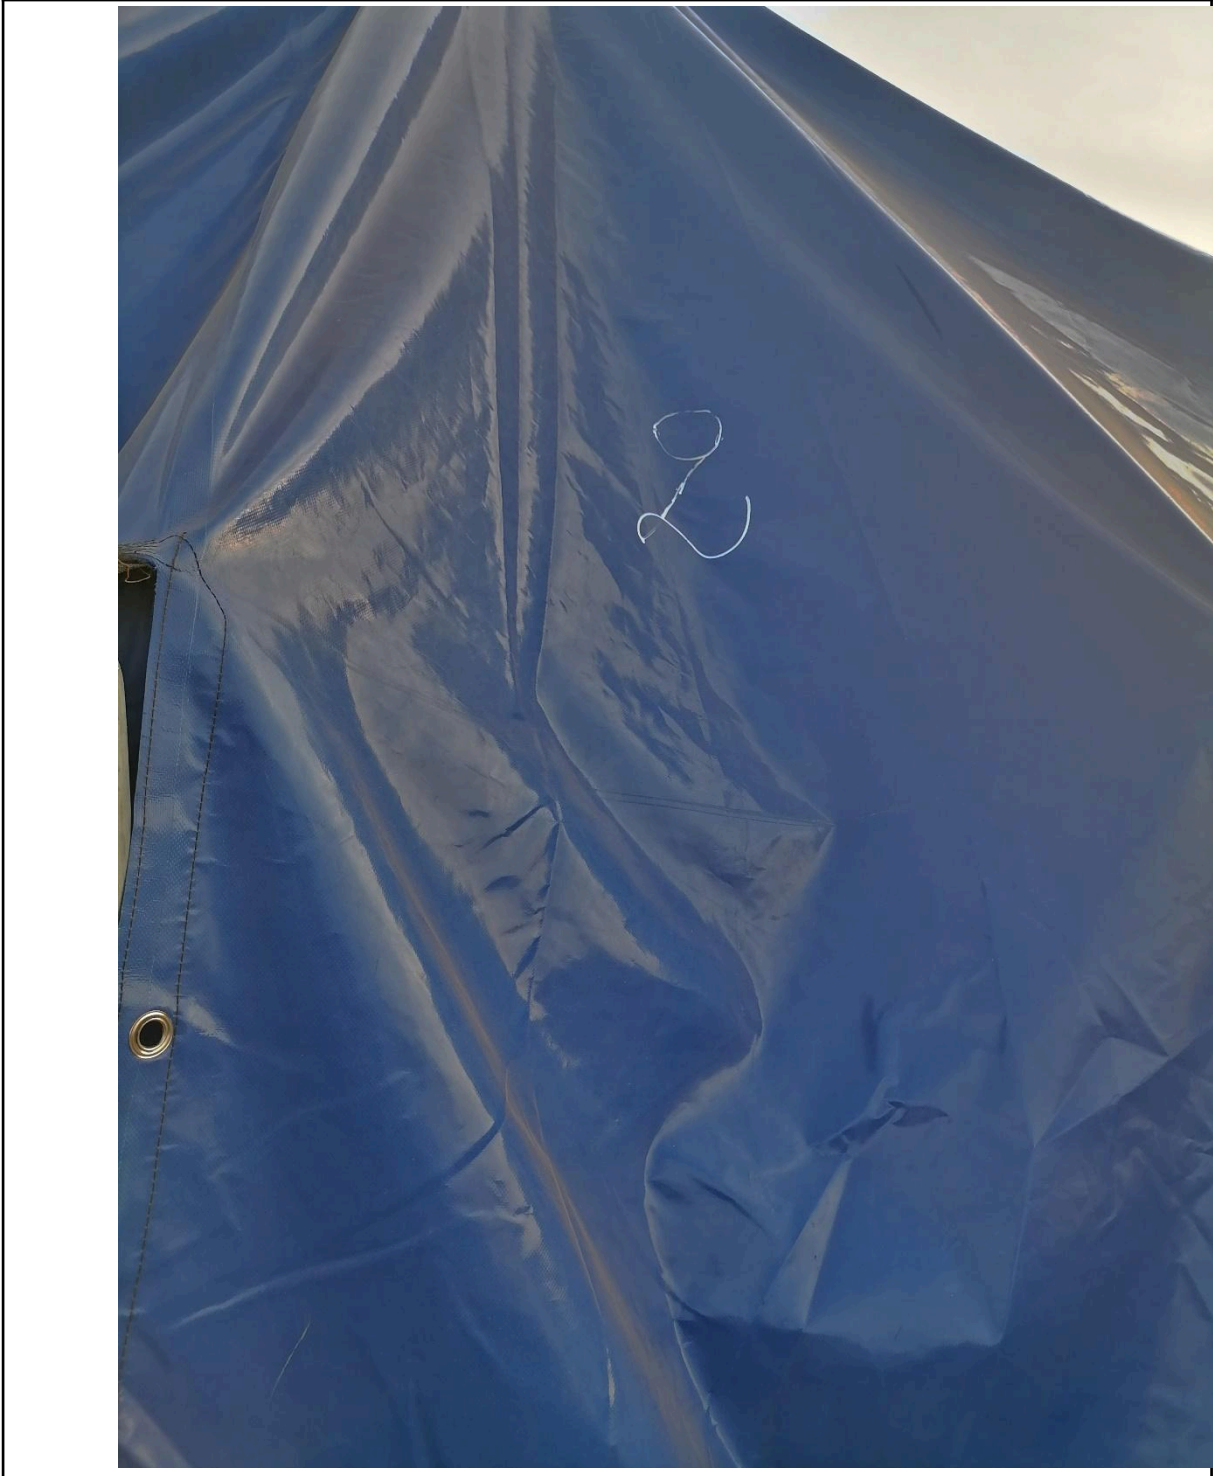

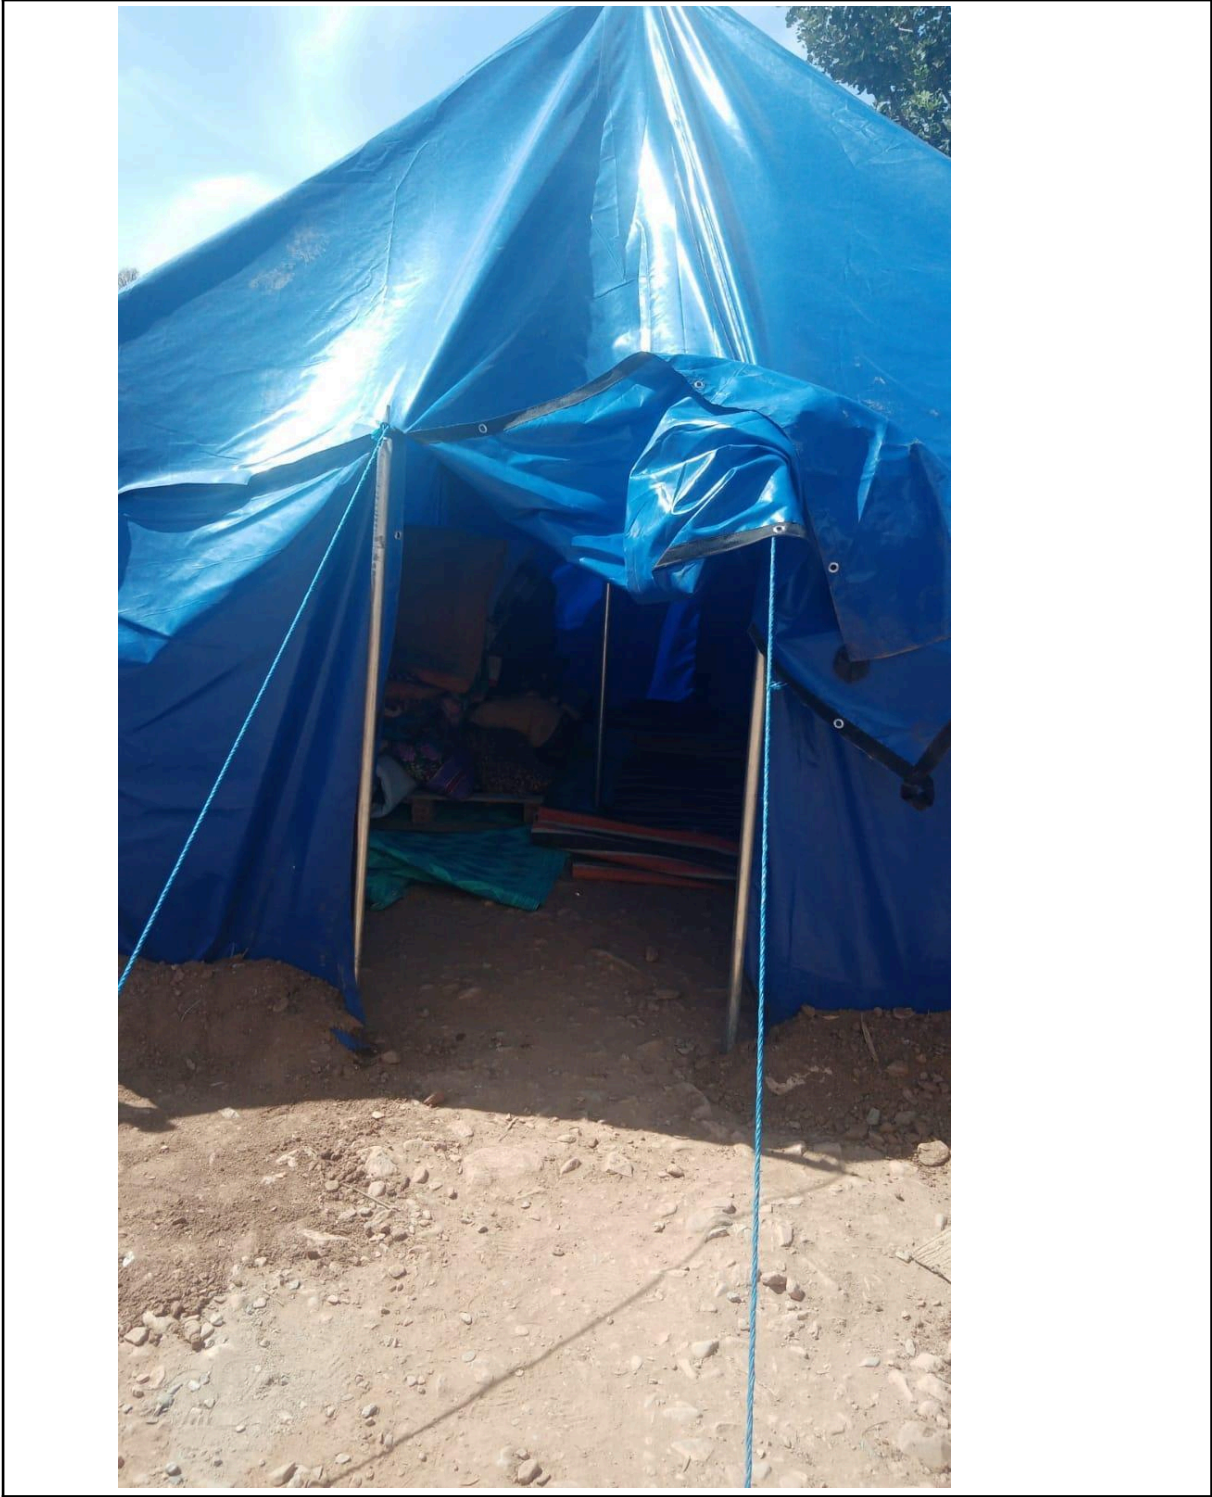

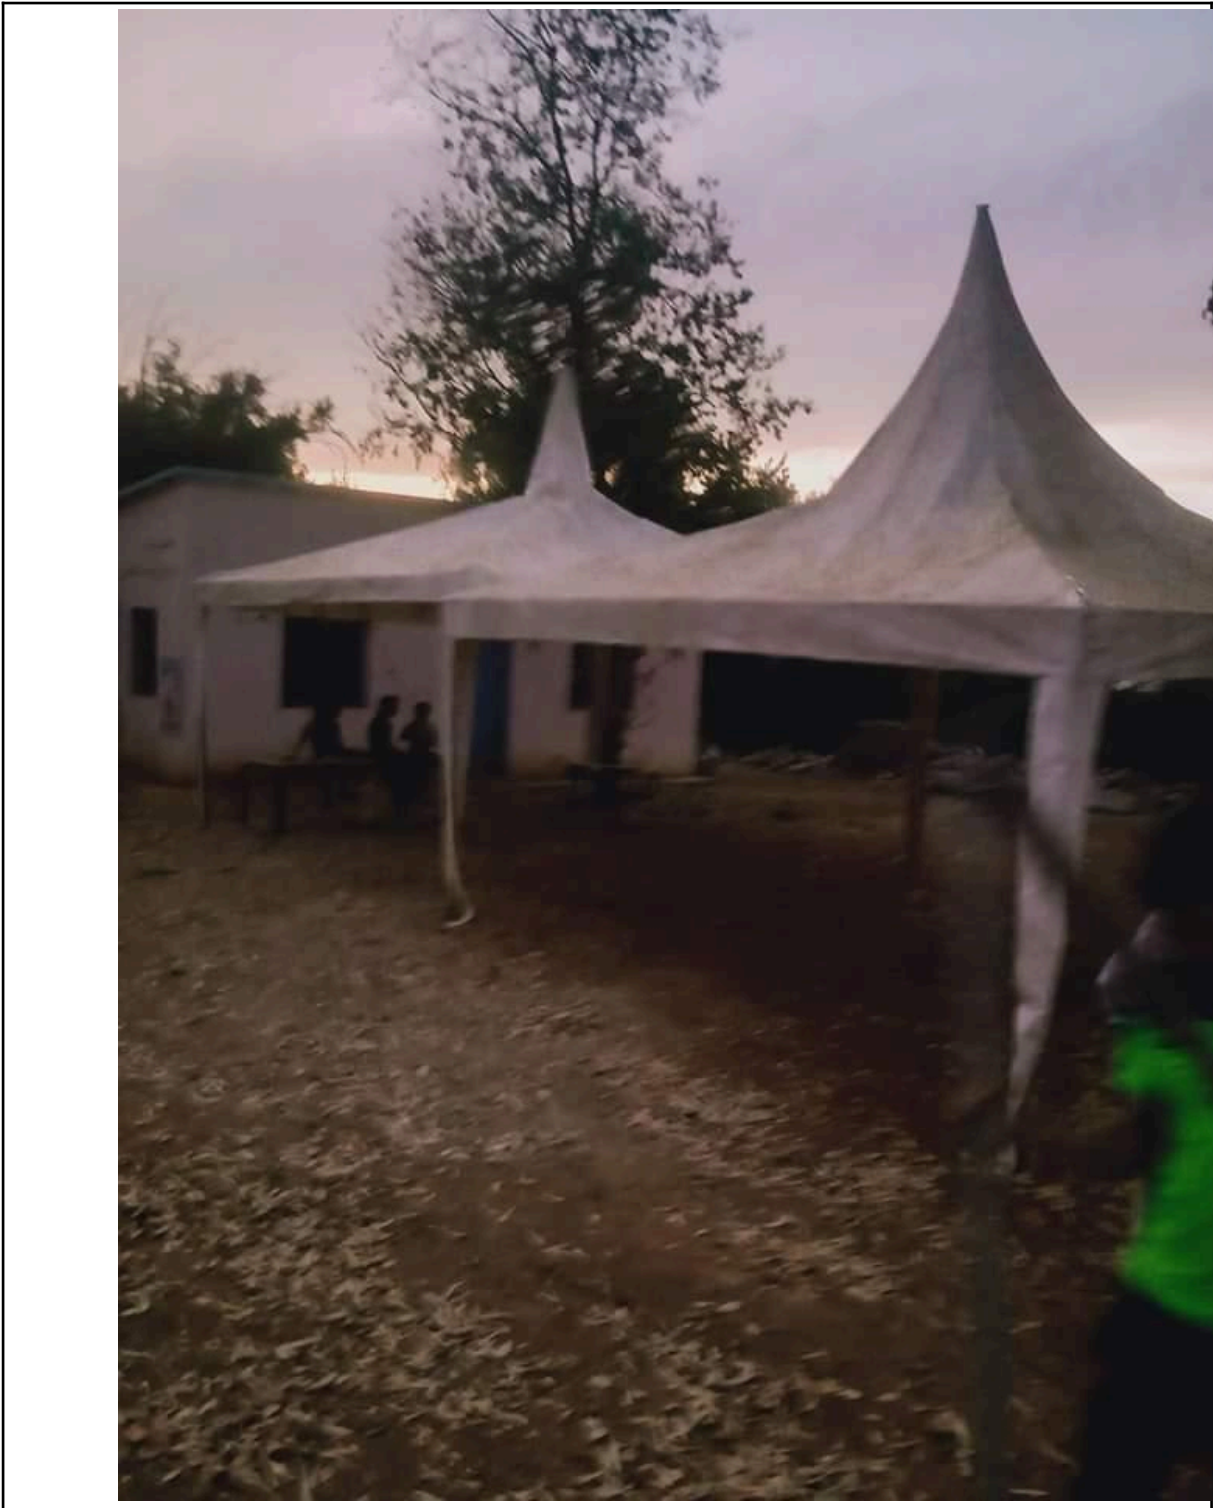

\*

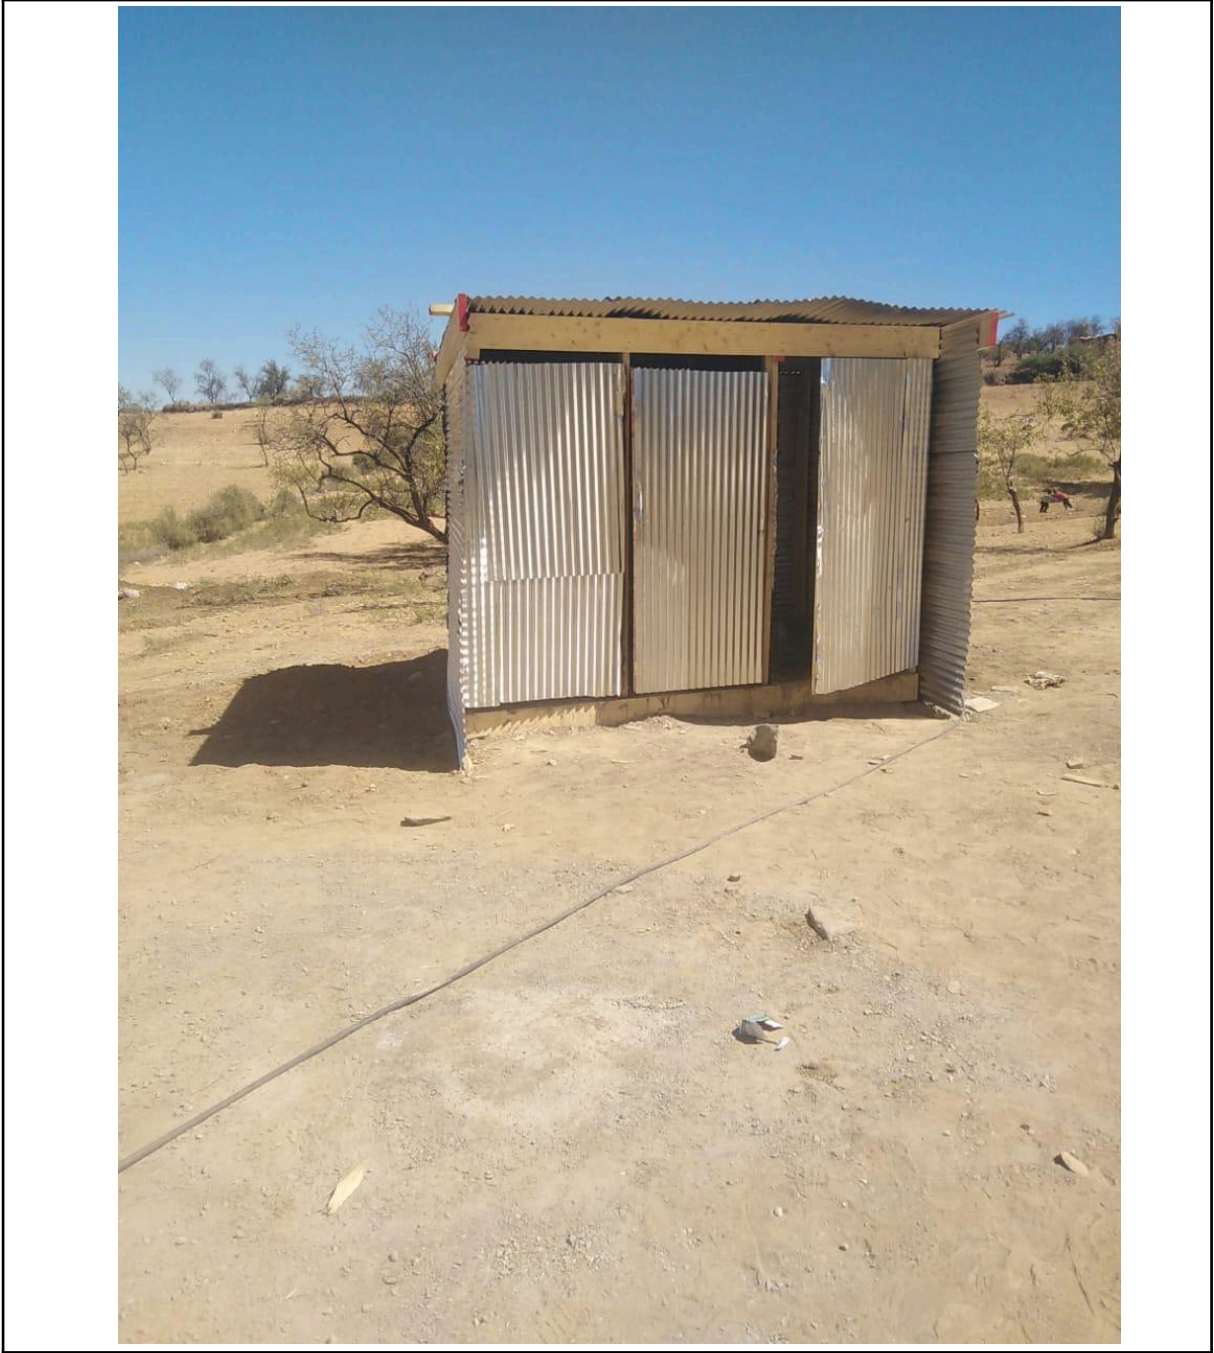

### 3. Installation of prefabricated houses in the Taroudant region.

#### 4. Installation des écoles primaires et distributions des fournitures scolaires.

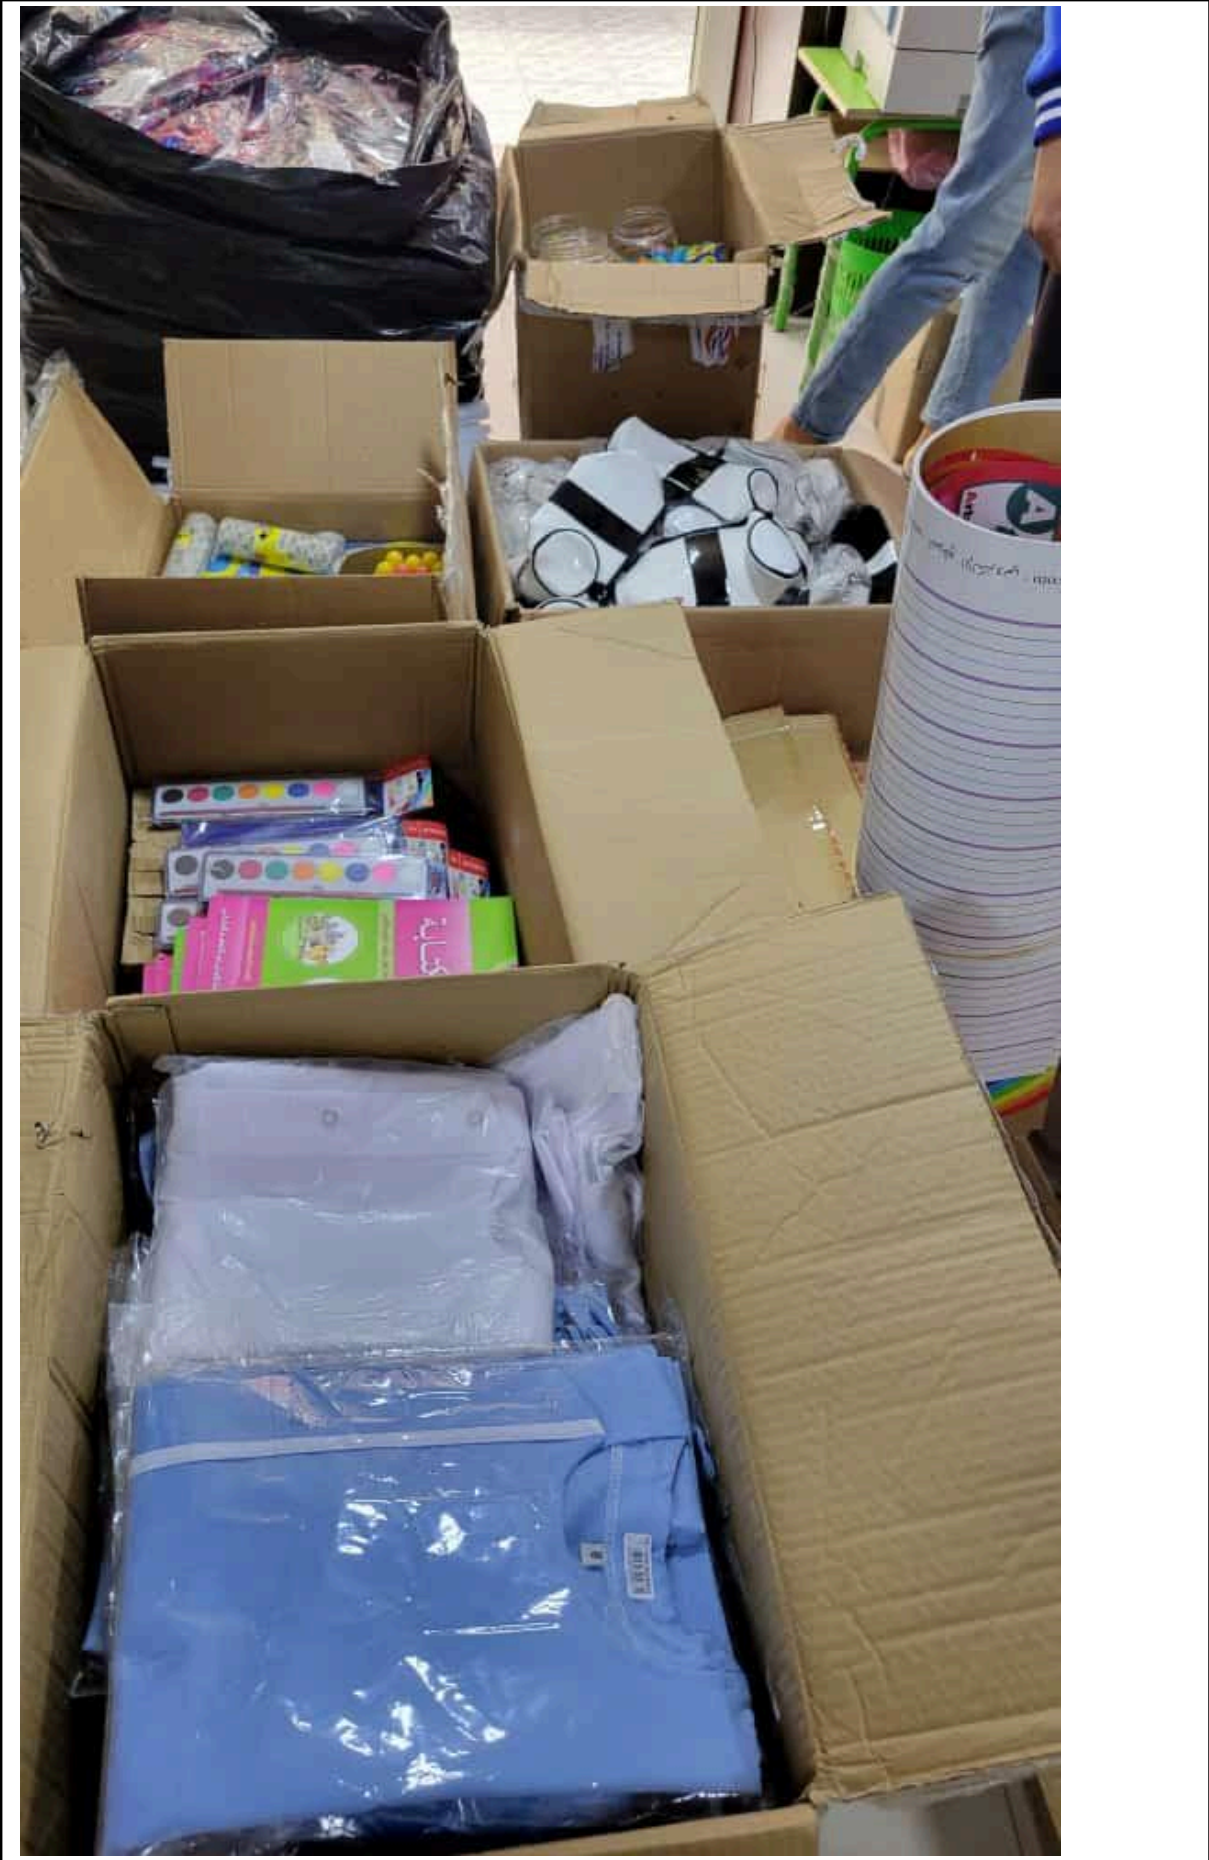

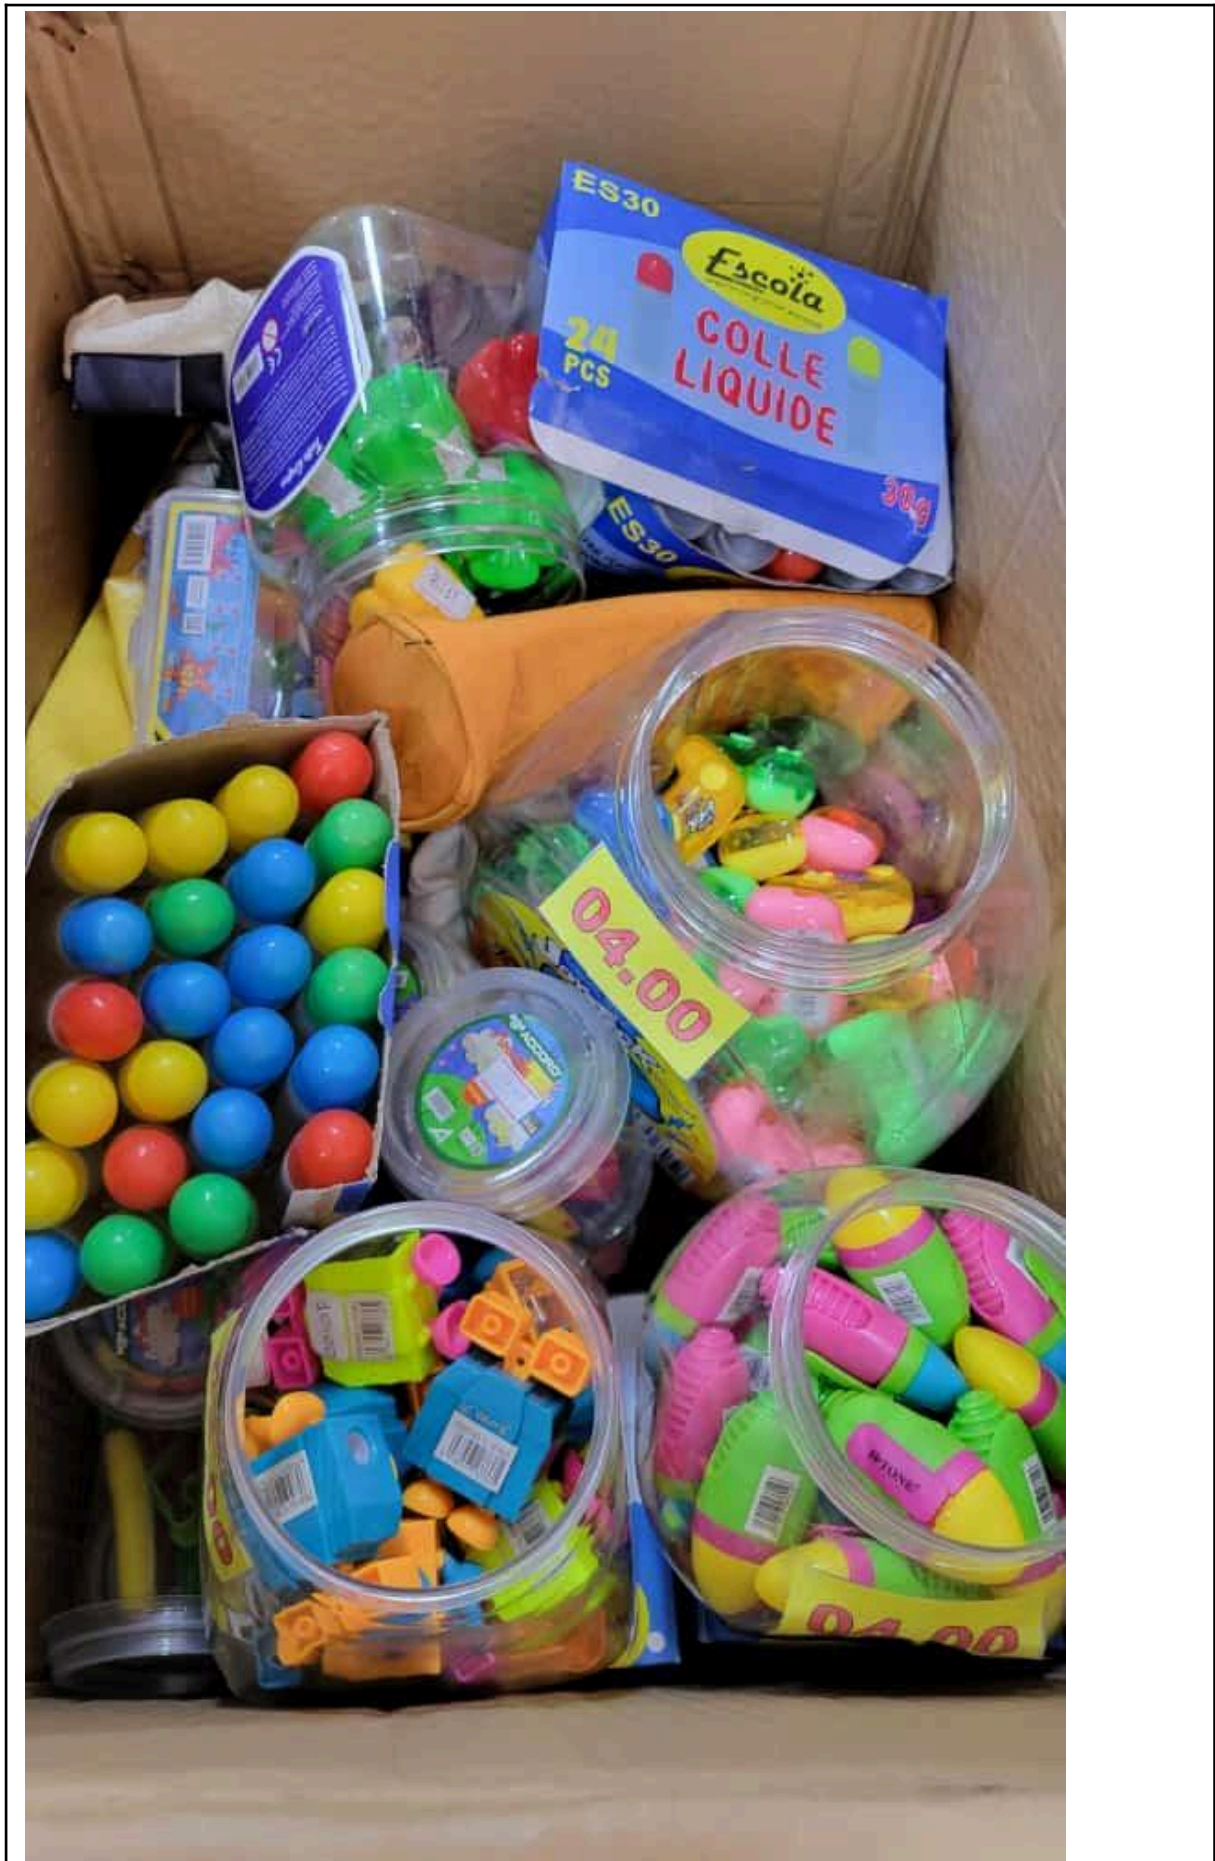

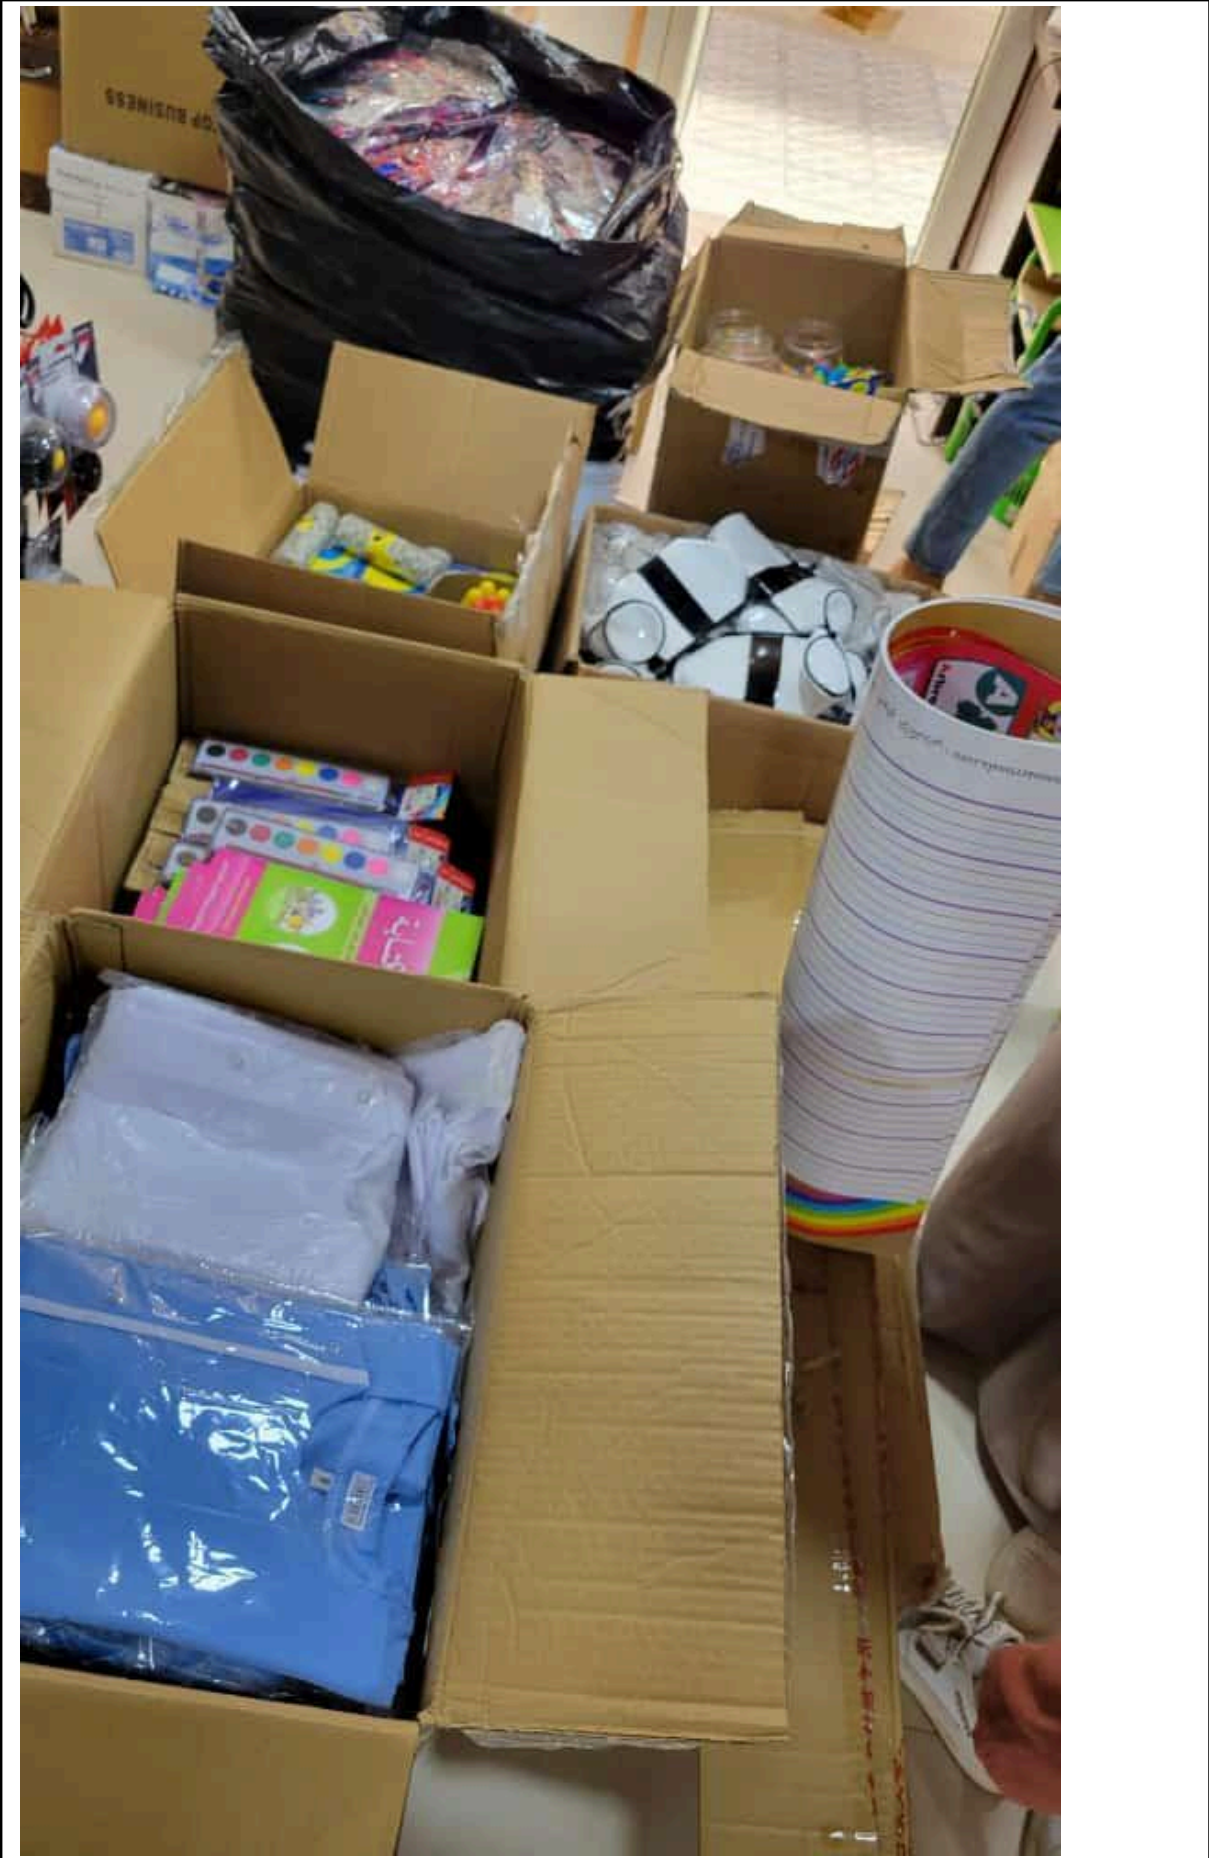

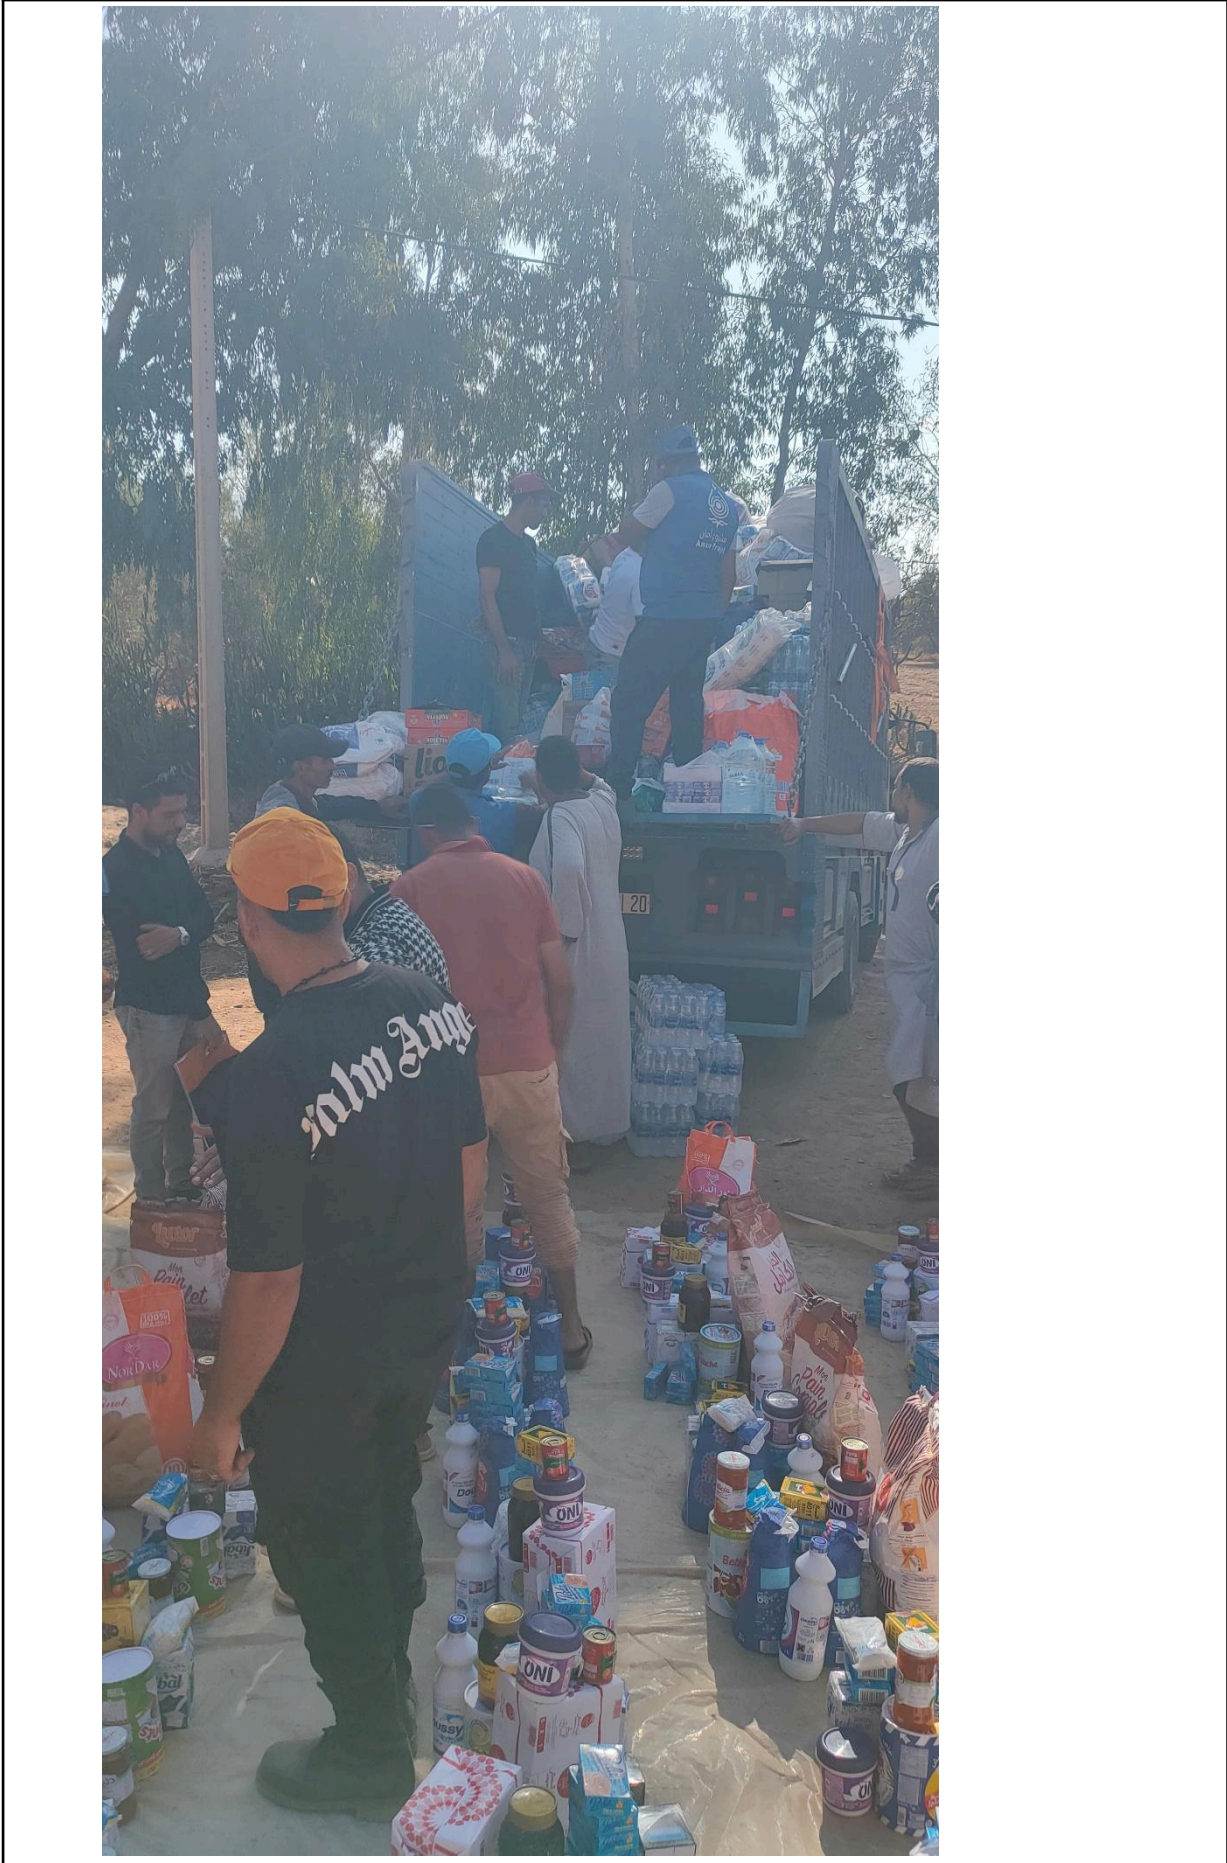

**5. Distribution of food baskets, tents, blankets, clothing, etc.**

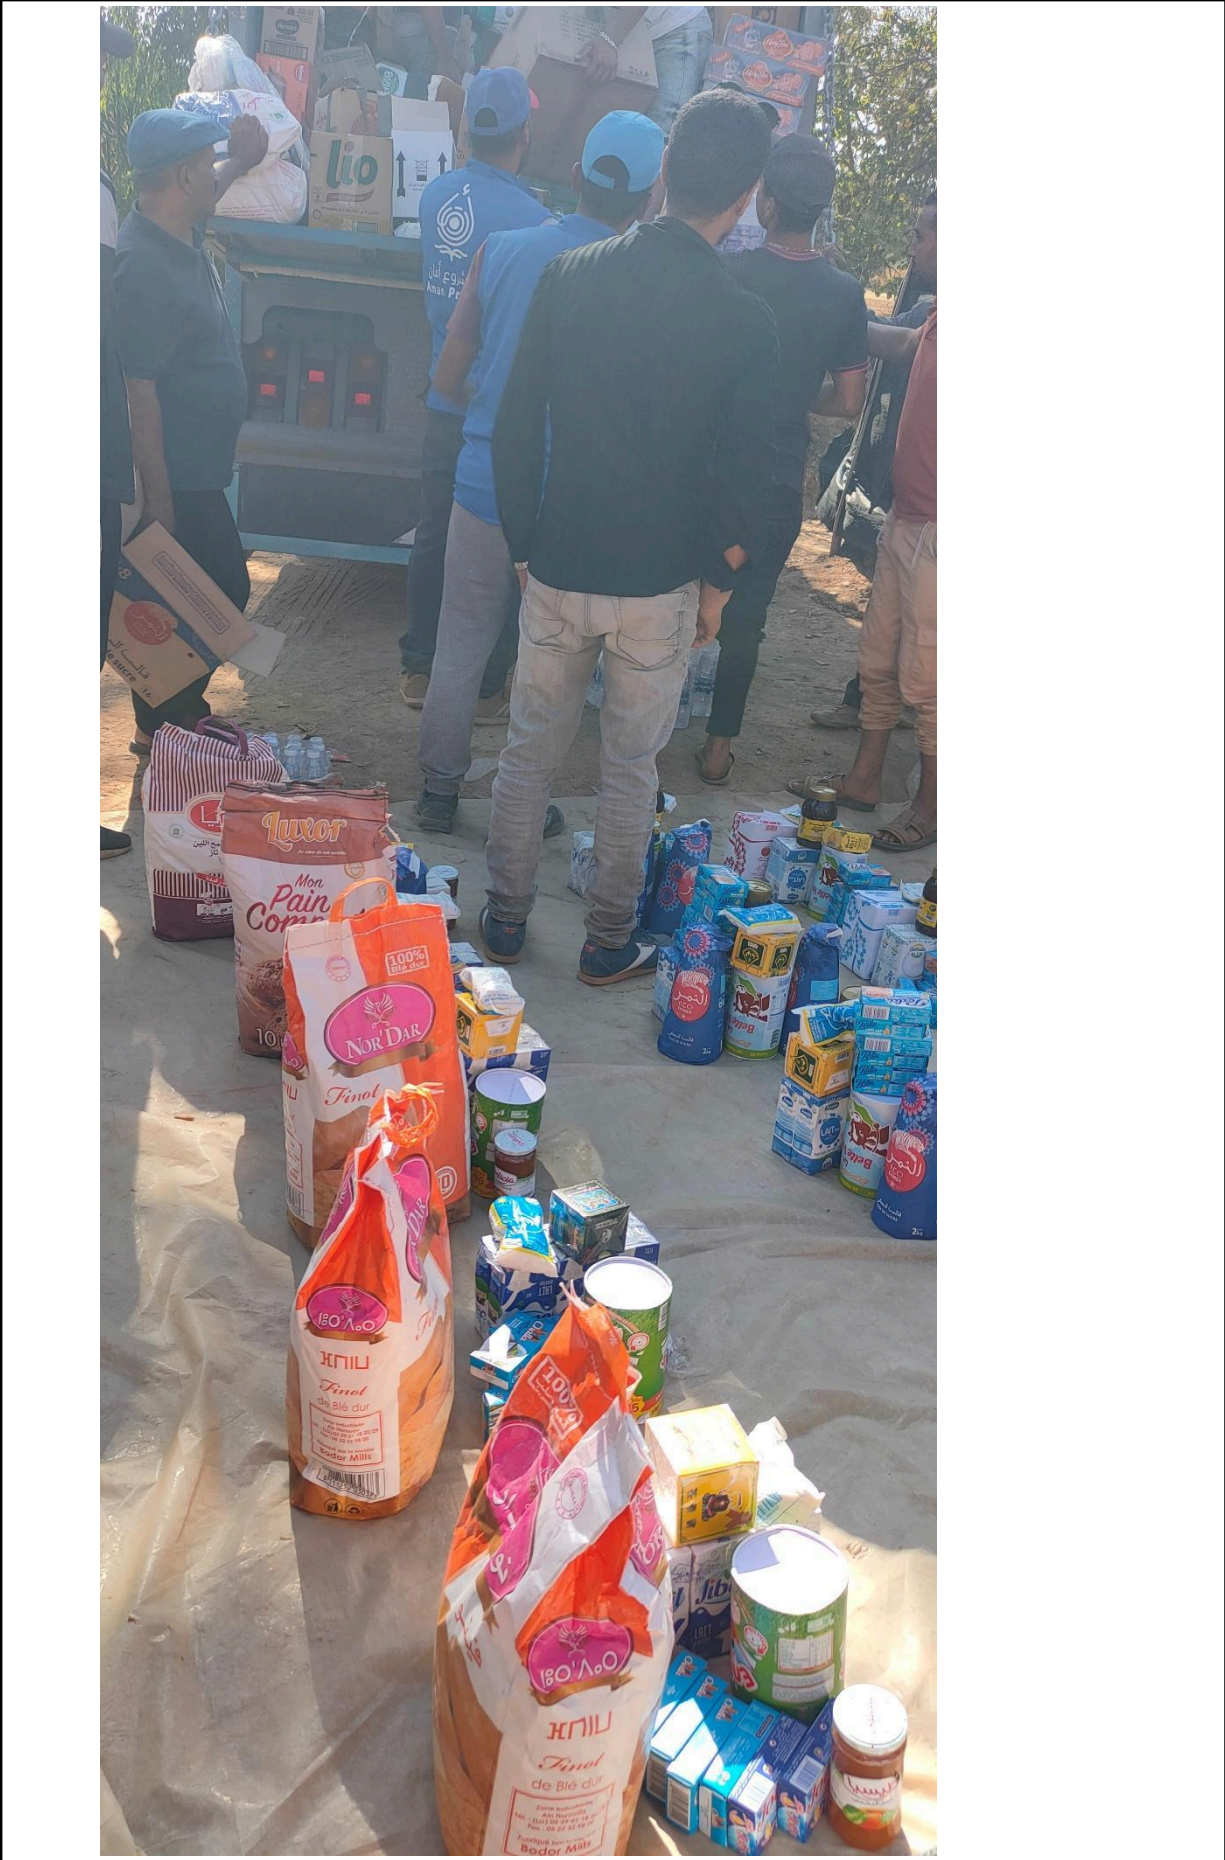

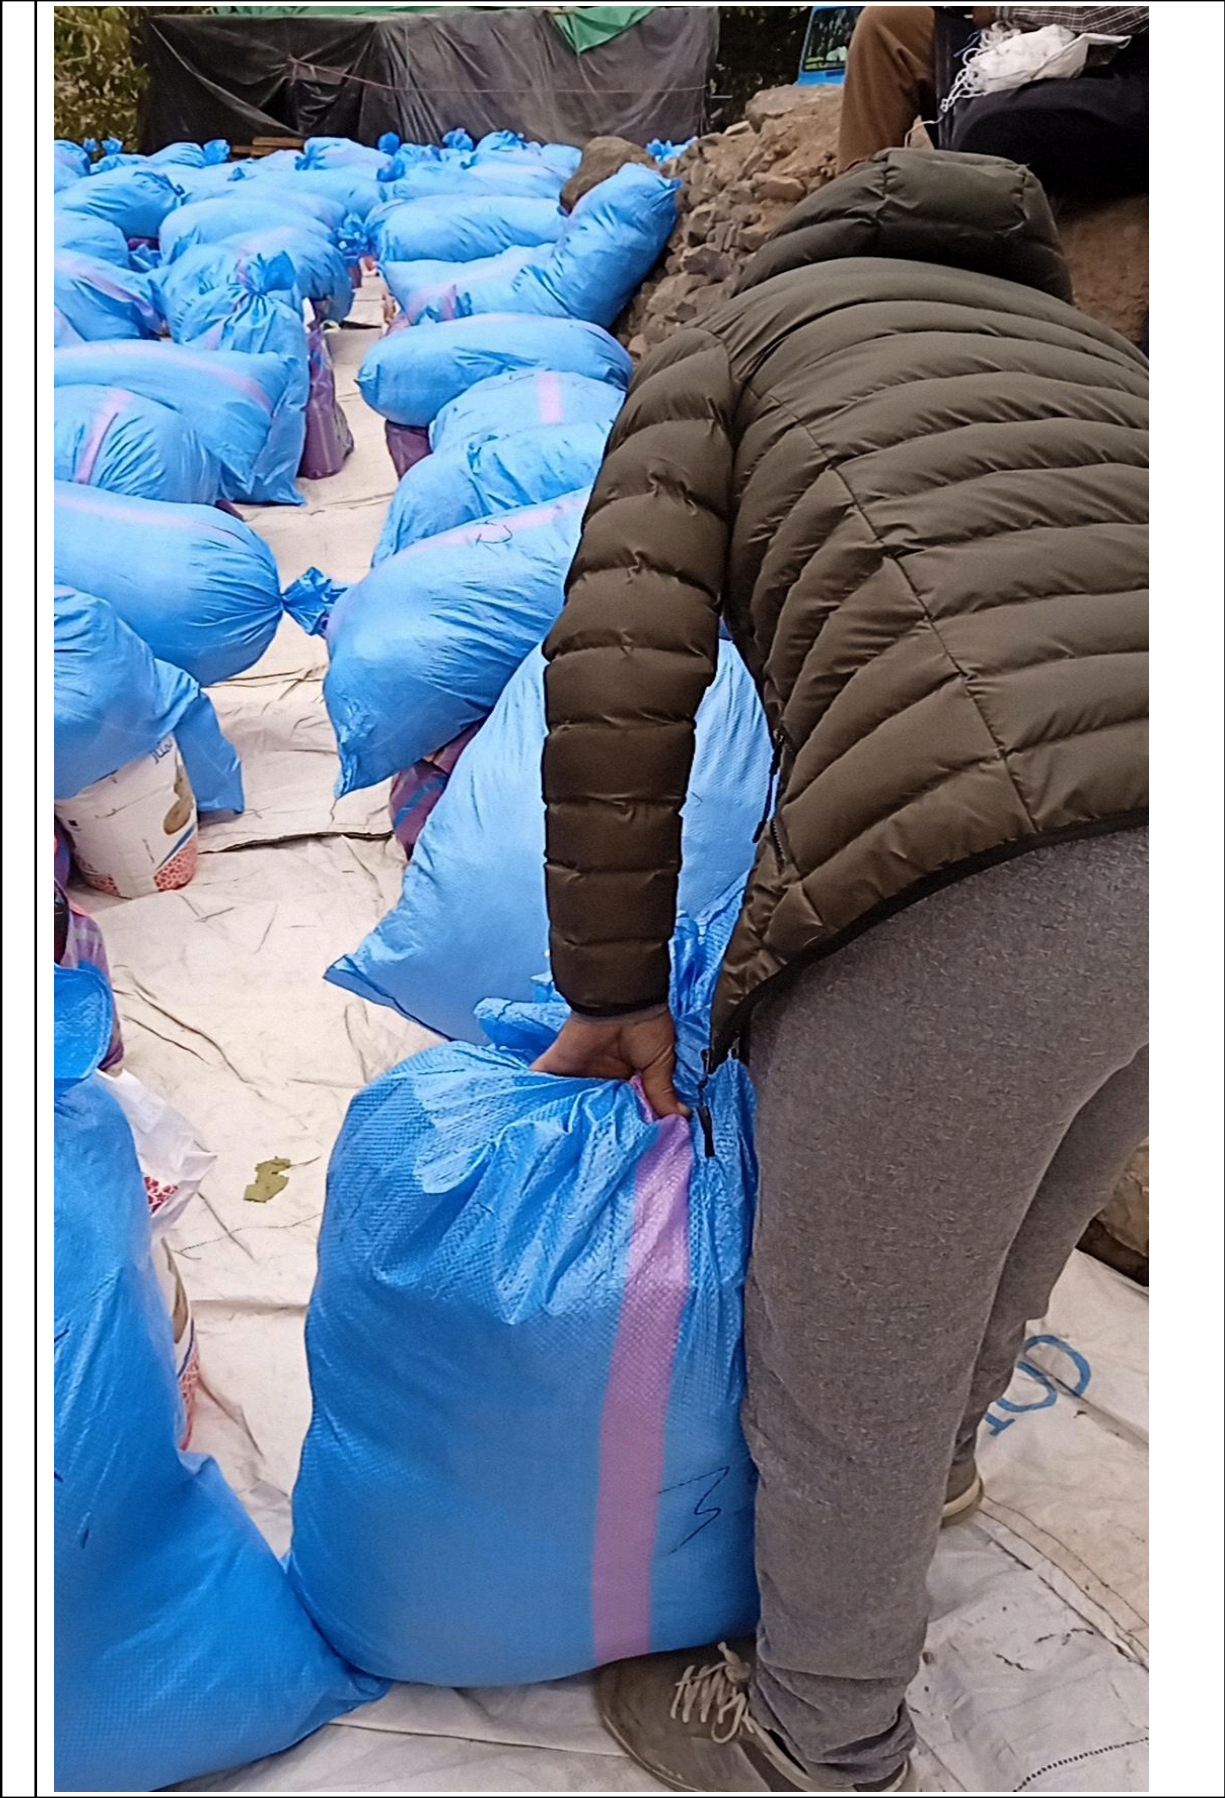

**6. Installation of mosques equipped with carpets, pallets, and sound systems.**

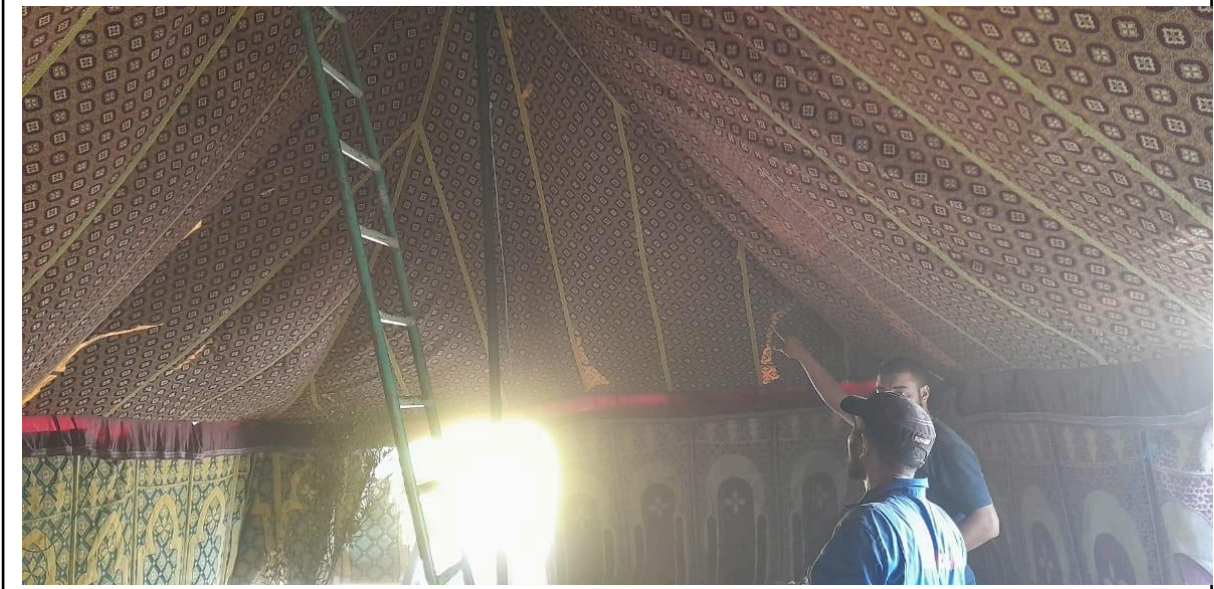

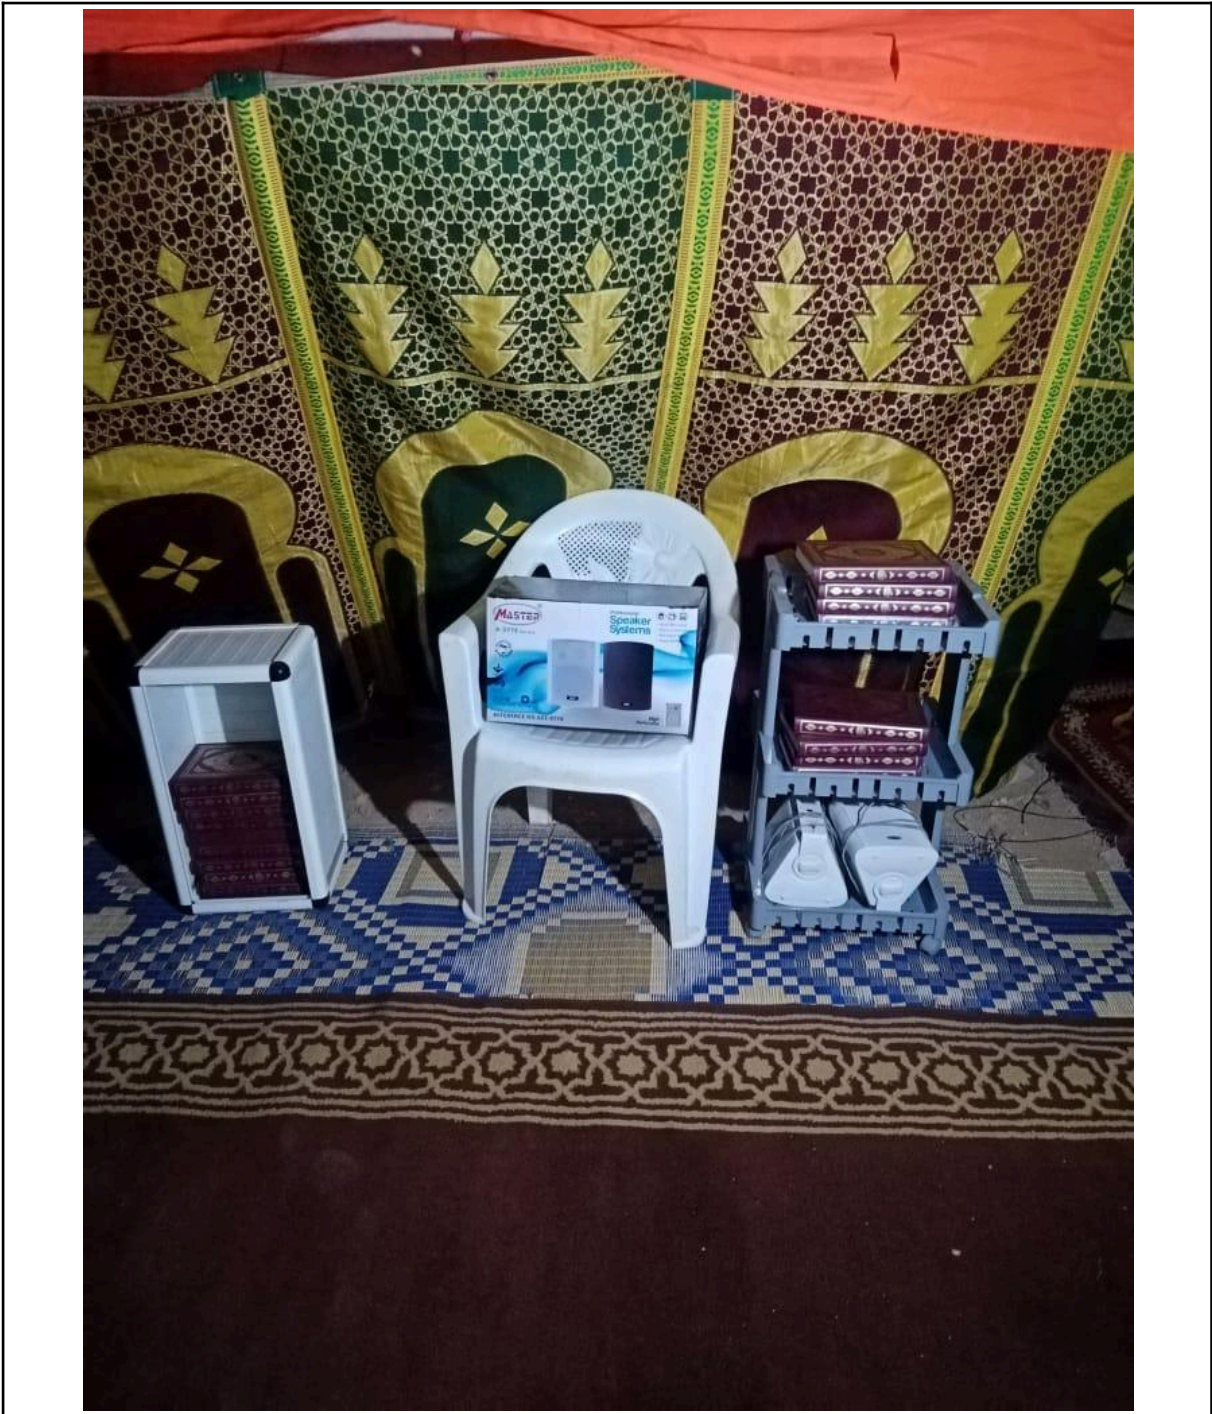

**7. Current challenges:** Based on the diverse infrastructure challenges in the affected region and because most of our projects were initially in the form of immediate SOS interventions to offer quick help directly after the catastrophe, we are now seeking large strategic partners like sponsors and global charities to address these mammoth challenges and aid in the socio-economic rebuilding of this area.
